Before You Call - Home Remedies/Treatments

It never fails, it's Sunday morning and your child wakes up with a fever and the questions roll through your mind. Is this a virus or something serious? How hot is too hot? Do I give her Tylenol or Advil and how much? What about a cool bath - should I do that?

We have created a list of [Frequently Asked Questions](#) on our website that we hear on a regular basis. While we may still need to see your child in the office if symptoms persist, these home treatment suggestions may help you make your child more comfortable until our office opens.
